(加)Wesley Brown

Description part of the first 1-65 days, memory is the most important 2000 words. First editor on word classification and arrangement of the word book in alphabetical

order to find them easily, but the memory of people would be trapped in boring. The book broke the alphabetical order, orchestration semantics contact between the word. As far as possible, students can contact memory, many linguists at home and abroad are respected practice, the editors hope to give IELTS students to help.
The first major feature of this section, is the Editor Contact the IELTS test and interpretation of each word. Listen which is a major feature of the IELTS stressed that candidates should be flexibility in the use of long sentences, but the traditional dictionary widespread listen shorter, older, falls far short of the requirements of the IELTS. Shows a novel long, flexible sentence sentence listen editor from overseas newspapers, magazines and websites carefully selected, refer to the authoritative dictionary, cooked and translated two listen carefully to each word, (U.S.) of Eve Bower ' Ms. whom also devoted a lot of energy, the book made a lot of wonderful listen. The first sentence, used to improve everyone's ability to read words on the language environment for students to guess the meaning of their scenarios. Language sense, to improve reading ability, but can also deepen the impression of the word. Second example sentences on the last, described as a "big listen, editor and choose carefully crafted or semantic humor, or shows a novel, or a sentence beautiful sentences. Easy to recite memory, used to improve students' speaking and writing.
